USE IN THE
GARDEN

**Quality Australian Made LED Lights
at Affordable Prices**

Light This Light That LED garden lights use up to 80% less energy than normal garden lights saving you money on energy bills and helping reduce the impact of global warming.

WHAT WE ARE OFFERING YOU...

This is a service we provide to Landscapers, Landscape Architects, Architects, Builders, Electricians and Designers throughout metropolitan Sydney.

If you've been thinking about outdoor lighting, or need to upgrade your existing light system, we are offering you this unique service and opportunity to see what your garden would look like with a new or improved light system for FREE*.

We will be happy to take your brief, and install our unique LED light system for you
to see in your own garden over a few nights.

From there you will brief us of any changes you would like to make.

Generally it takes 20 minutes to set up 20 lights for a demonstration (prefer to set up during day time, but can do evening).

No job too big or too small. We're happy just to brighten up your life and make your garden beautiful to view at night.

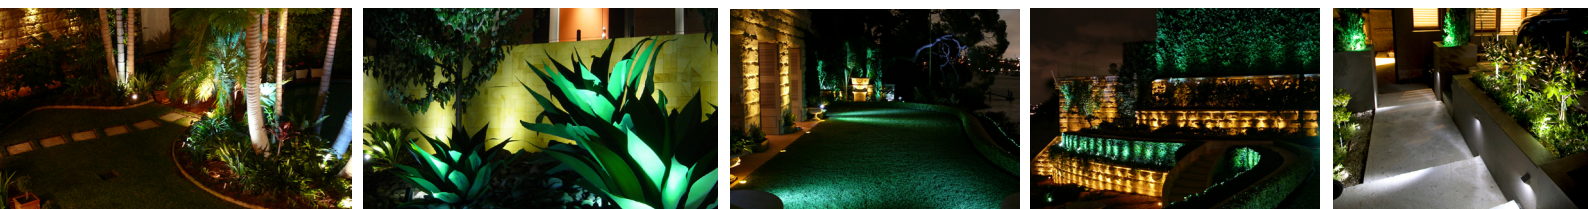

If you have a gardener or landscaper, we are more than happy to work with them.

You will be impressed with this unique service!

If you are happy with the quote and demo, we will supply and install.

It doesn't end there, we offer a FREE after sales service to tweak the lights every 6 months, to ensure they look their best.**

* THE OFFER IS FOR RESIDENTIAL HOMES. DEMONSTRATIONS APPROVED AT THE DISCRETION OF BONDI LIGHTS.
